

Use 3D Printed Stamps to make a greeting card!

- 1** Press your chosen stamp into the ink pad, then test using scrap paper to check for good ink coverage.
- 2** Press stamp again on the ink pad before pressing it onto the blank card.
- 3** If using another color, clear your ink off using the provided scrap paper. Then repeat the previous steps.
- 4** Use the markers and pens to write a note in the card or to add finishing touches to your design.
