Animal Waste Management Systems

Request for Certificate of Coverage

Facility Currently Covered by an Expiring State Non-Discharge General Permit

On September 30, 2014, the North Carolina State Non-Discharge General Permits for Animal Waste Management Systems will expire. As required by these permits, facilities that have been issued Certificates of Coverage to operate under these State Non-Discharge General Permits must apply for renewal at least 180 days prior to their expiration date. Therefore, all applications must be received by the Division of Water Resources by no later than **April 1, 2014**.

Please do not leave any question unanswered. Please verify all information and make any necessary corrections below.

Application must be signed and dated by the Permittee.

1. Facility Number: 040034 and Certificate of Coverage Number: AWS040034
2. Facility Name: White Rock Farms
3. Landowner's name (same as on the Waste Management Plan): White Rock Farms LLC
4. Landowner's mailing address: PO Box 44595
City/State: Charlotte NC Zip: 282150046
Telephone Number (include area code): (704)221-1705 E-mail: white rock farm@yahoo.com
5. Facility's physical address: 287 Pear Orchard Rd
City: Peachland State: NC Zip: 28133
6. County where facility is located: Anson
7. Farm Manager's name (If different than the Landowner): Roddy Purser Jr.
8. Farm Manager's telephone number (include area code): 704-695-0967
9. Integrator's name (if there is not an integrator write "None"): Murphy-Brown LLC
10. Operator in Charge (OIC) name: Charles Broome Telephone Number 704-578-3691 OIC # AWA 997063
11. Lessee's name (if there is not a lessee write "None"): NONE
12. Indicate animal operation type and number:

Re: Waste Plan Amendment for Pear Orchard Farm

On March 30, 2011 a temporary plan amendment was made to the Waste Management Plan for Pear Orchard Farm. In that temporary amendment due to poor fescue stand and weed issues on Tract 10486: fields 1, 4A, 4B, 5A, 5B, 6A, 6B, 7A, 7B, 8A and 8B the plant stand was destroyed and replanted to summer annual forages and then winter annual forages.

The initial plan was to re-establish a perennial forage crop of fescue. However, due the changing forage needs of the overall farm, the plan needs to change to permanently to reflect summer annual forages and winter annual forages being grown on the site. The table developed to reflect waste utilization for the temporary amendment will be adopted to reflect the new permanent plan. It will serve to amend the Waste Utilization table shown as part of the Nutrient Management Plan for Waste Utilization dated 09/16/2003.

Should there be questions about this plan amendment, feel free to contact me at 704-283-3738.

Elaine F. Marshall
